Summary

Passionate Full-Stack Developer with a solid foundation in Core Java, Data Structures & Algorithms (DSA), and the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in building responsive and interactive web applications using JavaScript, React.js, and Node.js. Experienced in developing RESTful APIs, handling database operations with MongoDB and MySQL, and applying OOP principles. Strong problem-solving skills, quick to learn new technologies, and committed to writing clean, efficient code.

Education

NBN Sinhgad School Of Engineering, Pune, Bachelor of Engineering in Computer Engineering   2021 – 2025
- CGPA: 6.7

SOU. Malanbai Devidasrao Deshmukh JR. College, Sirsala, 12th (HSC)   2019 – 2020
- Percentage: 69.38

Yogeshwari Nutan Vidyalaya, Ambajogai, 10th (SSC)   2017 – 2018
- Percentage: 82.60

Technologies

Programming Languages: Java, JavaScript

Frontend Technologies: HTML, CSS, ReactJS

Backend Technologies: NodeJS, ExpressJS, Spring Boot

Databases: MongoDB, PostgreSQL, MySQL

Tools and Platforms: Git, GitHub, Visual Studio Code, Render

Experience

Front-end Web Developer Intern, DevSkillHub   Feb 2024 – Apr 2024
- Developed and maintained dynamic web applications using ReactJS, ensuring responsive and user-friendly interfaces
- Collaborated with cross-functional teams to enhance application features and fix bugs in real-time
- Utilized Git for version control and code collaboration in a fast-paced development environment
- Gained hands-on experience with modern development workflows, tools, and best practices
- Demonstrated strong problem-solving skills and adaptability in meeting project deadlines

Projects

User Authentication and Authorization   Link
- Built a secure authentication system using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented JWT authentication, role-based access control, and OTP-based password recovery
- Used bcrypt for password hashing and protected routes using middleware

VisionCrafter   Link
- Developed a media processing app with functionalities like file compression, image enhancement, and background removal
- Frontend built with React and animations using Framer Motion & GSAP
- Backend handled file processing via Express.js and MongoDB, with API endpoints deployed on Render
